Different environments

We have different environments in our world. In the mountainous environment, it can be difficult for people to live and travel. It can be cold with lots of rain. In rural environment, there aren't many houses or buildings. It is sparsely populated. In urban environment, it is densely populated. Most people live there. There are lots of buildings.

Air pollution

There are two main types of pollution: air pollution and water pollution. Air pollution is caused by the things that people do, such as driving cars and trucks, or making things in factories.When we burn fuels, they make carbon dioxide emissions. Over a long time, this can lead to climate change, because there is too much carbon dioxide in the atmosphere.Now, people are working together to stop air pollution.

Hawawshi recipe

I love eating hawawshi.[20] This is made with bread and beef or lamb[21]. Cook the meat with onions, herbs, and spices.[22] Press the bread together around the meat and then cook it.[23] We sometimes eat it with salad.[24] It is very delicious.[25]

Sham El-Nessim

The festival is for the start of spring and it is very old.[14] The Ancient Egyptians also celebrated it, as a festival of creation and new life.[15] Sham El-Nessim is always on the same day as Coptic Easter Monday.[16] Because it is the start of spring, the weather at Sham El-Nessim is usually sunny and warm.[17] We eat lots of nice food and play music and games.[18] We also boil eggs, then paint and decorate them.[19]

Culture and traditions in Egypt

In Egypt, there are so much to see, such as the Pyramids of Giza, the old Luxor temple, the Red Sea and the River Nile.[1] In all parts of the country, you can see amazing sights.[2] You can eat delicious food, and meet friendly people.[3] Egyptian people are famous for welcoming visitors with food, and drink.[4] They are also famous for inviting guests to their home.[5] You should bring a present if you are invited to an Egyptian family's home.[6]

When you give a presentation, you share information about something or explain something by talking about it. A website is a home page on the World Wide Web. Websites are usually about one topic. Users can access websites from different electronic devices like smartphones, tablets, and laptops.

Air pollution

Air pollution is one of the biggest problems for people's health. Air pollution is created by airplanes, traffic, factories, and power plants. When we burn fossil fuels and use strong cleaning chemicals to clean our houses, we create pollution. However, there are some new and exciting ways to solve the problem of air pollution.We have learned about scrubbers and smog free towers that help to clean gases and pollution produced by factories and industry. Greening is growing a wall of plants on the side of a building.

Traffic

Many cities nowadays have a big problem: traffic. The traffic lights are often red and that makes the traffic even worse. We must stop at the traffic lights when the light is red. We have good public transportation. The problem is that buses don't always go to the destination you want. If there is a traffic jam, we will move very slowly.

Transportation in Ancient Egypt

In Ancient Egypt, the most important highway was the River Nile. The Egyptians traveled mostly along the river because all the major cities were along the River Nile. So boats and ships were the most important forms of transportation. Most Egyptians used a small boat called a skiff. They made this simple boat from papyrus and rope. People could travel short distances in these boats, or they could use it for fishing.

Flood and landslide

Flood is one of the natural disasters. It causes great damage 2 to everything. Too much rain in one area can cause a flood. Flood happens when too much rain falls on hills and mountains. When there aren't enough trees to hold the water, there can also be a landslide. This is when the soil and rocks move and fall away.

Climate change

Climate change affects everyone living on our planet. We need to try to slow it by working together. Nations are now making plans to work on this problem. If we all help, we can slow climate change. We can recycle paper, plastic, and glass at home. We should stop burning coal and fossil fuels.

Traffic

Many cities nowadays have a big problem: traffic. The traffic lights are often red and that makes the traffic even worse. We must stop at the traffic lights when the light is red. We have good public transportation. The problem is that buses don't always go to the destination you want. If there is a traffic jam, we will move very slowly.
